Zheludev, I. S. .. The change of complete symmetry of the crystals during the phase transitions in ferroelectrics and ferromagnetics, 168.

Cubic and ultimate groups of complete symmetry, 191.

Verma, V. K. .. Ripple marks in Alwar quartzites east of Mera ka Gurha near Udaipur, Rajasthan, 313.

## TITLE INDEX

Bands, ultra-violet, of $S_2$, on the fine structure of the (Narasimham and Brody), 345.

Band system of NS, a new $^2\Pi$–$X^2\Pi$ (Narasimham and Srikameswaran), 227.

Beta-transitions, analysis of some allowed (Swarnagowri and Ramaswamy), 203.

Chalcones as inorganic analytical reagents, I (Syamasundar), 241.

Circular cones, unyawed, at hypersonic speeds, approximate solution for (Nath), 207.

Copper (II)-ethanolamine complexes, spectrophotometric and potentiometric investigations of, II (Mahapatra and Subrahmanya), 299.

Day airglow (Ghosh and Sharma), 318.

Digital computer at T.I.F.R., a magnetic tape auxiliary memory for the (Dosabhai and others), 251.

Dipole moment of nitrogen dioxide and dinitrogen tetroxide—the structure of the dimer (Anantakrishnan and Rao), 292.

Dipole moments of some furan derivatives (Anantakrishnan and Soundararajan), 365.

Disulphur monoxide solutions obtained by the reduction of cupric oxide by elemental sluphur, reactions with (Satyanarayana and Murthy), 263.

Emission spectrum of bismuth monofluoride BiF—'A' system (Sankaranarayanan and others), 378.

Even-even nuclei, excited states of, classification of (Brahmavar and Ramaswamy), 102.

Even-even nuclei, systematics of some levels in (Swarnagowri and Ramaswamy), 371.

Even-even nuclei, vibrational, verification of Raz's model for (Swarnagowri), 390.

Geophysical effects of 1962 U.S. high altitude nuclear tests (observed in Rochester, New York) (Santirocco and Parker), 77.

Iron-resacetophenone-oxime complex, photometric study of (Reddy and others), 159.

Lifetime measurements in $Sb^{121}$ (Ramaswamy and Bishara), 141.

Magnetic symmetry and physical properties of crystals (Bhagavantam and Pantulu), 1.

Moon, close satellites of the, trajectories of (Rajappa), 49.

Non-Newtonian fluid, an electrically conducting, flow of, between two rotating coaxial cones in the presence of external magnetic field due to an axial current (Rao and Bhatnagar), 269.

Oxidation, studies in, IX (Jayaraman), X (Anantakrishnan and Jayaraman), 68, 93.

Physiologically active compounds, search for, VIII (Somayajulu and Rao), 396.

Polypeptide and protein chain conformations, stereochemical criteria for, I (Ramakrishnan), 327.

Raman spectrum of α-glycine and the orientation of $CH_2$ groups, polarisation studies of (Balasubramanian and Krishnan), 115.

Raman spectrum of diglycine barium chloride monohydrate (Krishnan and Balasubramanian), 14.

Raman spectrum of ethyl chloroacetate (Neelakantan), 385.

Raman spectrum of hydroxylamine hydrochloride ($NH_3OH.Cl$) (Krishnan and Balasubramanian), 285.

Ripple marks in Alwar quartzites east of Mera Ka Gurha near Udaipur, Rajasthan (Verma), 313.

Secondary flow on an infinite yawed cylinder in a compressible stream, investigation of (Sharma), 153.

Shells of revolution, a generalized square yield condition for (Sankaranarayanan), 127.

Sound pulses, propagation of, in a semi-infinite stratified medium (Mishra), 21.

Symmetry, complete, cubic and ultimate groups of (Zheludev), 191.

Symmetry of the crystals, complete, the change of, during the phase transitions in ferroelectrics and ferromagnetics (Zheludev), 168.

Uranium (VI) complex with 3-phenyldaphnetin, spectrophotometric studies of (Jain and Kumar), 185.

Winchite from Jothwad, Panchamahal District, Gujarat State (Sadashivaiah and Naganna), 355.

Zirconium, estimation of, and its separation from iron (II) using 4-phenyldaphnetin (Jain and Singh), 362.
